

Become an Tenure Track Faculty Position as Assistant, Associate, or Full Professor in Pharmaceutical Care or Pharmacotherapy Research

Since its founding in 1907, the [Faculty of Pharmacy](#) has been a leader in training and research on drugs and pharmaceutical care thanks to its innovative, interdisciplinary approach to meeting society's healthcare challenges. Now installed in the Jean Coutu Pavilion, it boasts state-of-the-art laboratories, classrooms equipped with the latest technological tools, and a bright agora that makes for a welcoming and productive learning environment. Its goal is become a driver of change for the advancement of pharmacy and the pharmaceutical sciences.

Your day-to-day impact

Through your teaching and your research activities, you will play a pivotal role in fostering excellence within your faculty. Furthermore, you will enhance the prominence of your area of expertise and actively participate in the daily activities of our renowned university. In this role, your responsibilities will include:

- Develop an independent, innovative and internationally recognized research program in the field of pharmaceutical care or pharmacotherapy with a research focus on pharmacy practice, pharmacy evaluative research, clinical pharmacotherapeutic research, pharmacy implementation science or any other relevant topic.
- Actively participate in undergraduate and graduate teaching, particularly in clinical or evaluative research in pharmacy.
- Supervise undergraduate students in pharmacy or biopharmaceutical sciences, as well as master's, doctoral, and postdoctoral students in pharmaceutical sciences.
- Actively contribute in the development of your discipline through conferences, publications, and other scientific activities, as well as to the functioning of the Faculty through contributions to committees and working groups.

What you'll need to succeed

- Develop an independent, innovative and internationally recognized research program in the field of pharmaceutical care or pharmacotherapy with a research focus on pharmacy practice, pharmacy evaluative research, clinical pharmacotherapeutic research, pharmacy implementation science or any other relevant topic.
- Actively participate in undergraduate and graduate teaching, particularly in clinical or evaluative research in pharmacy.
- Supervise undergraduate students in pharmacy or biopharmaceutical sciences, as well as master's, doctoral, and postdoctoral students in pharmaceutical sciences.
- Actively contribute in the development of your discipline through conferences, publications, and other scientific activities, as well as to the functioning of the Faculty through contributions to committees and working groups.
- Adequate proficiency in the French language or a strong commitment to mastering the proficiency level required upon assuming the position in accordance to [Université de Montréal's Language Policy](#). A French language learning assistance program is offered to all professors who wish to acquire French language skills or enhance their communication abilities.
